ACTSMS

Welcome to our second ScaleACT mini bulletin where we endeavour to keep everybody up to date with all things ScaleACT planning. In this edition, we have an up-to-date list of traders who will be at the show and the list of all the competition categories.

ScaleACT 2021 TRADERS

The Committee has been heartened by the immense support shown for ScaleACT by numerous vendors who have committed to attending our event in October. These vendors will bring with them all manner of tools, kits, aftermarket, magazines, reference materials, paints, airbrushes and compressors for your purchasing pleasure. No doubt the best place to get all your modelling needs under one roof, there will likely be show specials and discounts on offer too! Look out for the following traders.

COMPETITION TIME!

In a major departure from previous years, the ScaleACT 2021 competition will see the implementation of fixed categories. This means we stick to only the advertised list and neither split nor merge categories on the day. We had previously implemented (artificial) limits on minimum and maximum numbers of entries in each category. While this was laudable and ensured we had 'real' competitions in all categories, it added significant extra work on the day as competition administrators fussed around trying to work out which models of small categories could sensibly be merged and/or which large categories could be split to form 'judgable' groups. This also meant that there was the potential for damage as models were often moved around to fit the newly formed categories. The simple move to judge what turns up on the day neatly avoids the extra logistics work and handling risk.

ScaleACT 2021 competition categories

Aircraft

Notes: Small = 1/72 and smaller, Medium = 1/48, Large = 1/32 and larger.

- 1: Military Aircraft. Prop, single. Small scale.
